## INTRODUCTION

Welcome to my photography portfolio.

I am passionate about capturing unique and meaningful moments, focusing primarily on documenting special and significant events.

My career as an event photographer has spanned from covering cultural and artistic gatherings to prestigious international events. Recently, I had the honor of being the official photographer for the Italian delegation at the Berlinale, which provided me with the opportunity to immortalize significant moments of one of the world's most important film events.

Furthermore, I actively collaborate in the photographic documentation of events at the renowned ReDI School in Berlin, where I have documented learning experiences related to programming and computer science for disadvantaged groups, including refugees and political migrants.

This experience has enriched me greatly, allowing me to grasp the true essence of events and the people who compose them.

Beyond my official assignments, I also have a strong inclination towards reportage and artistic photography, which I always strive to integrate into my work. I am a member of a photography collective here in Berlin, where I cultivate my passion for the artistic and narrative approach to photography.

This portfolio represents a selection of my best work in 2024 as an event photographer. I hope you can perceive my dedication to capturing unique and meaningful moments, and that my images can inspire and communicate the essence of every event I have had the privilege to document.

Thank you for the opportunity to share my work with you.

Enjoy browsing!

## BERLINALE EFM

I took part in the event as the official photographer of the Italian delegation, which was also the 'country in focus' at the 74th edition of the Berlinale this year. This international event took place from February 15th to February 25th, 2024, at various locations including the Gropius Bau and the Berlinale Palast.

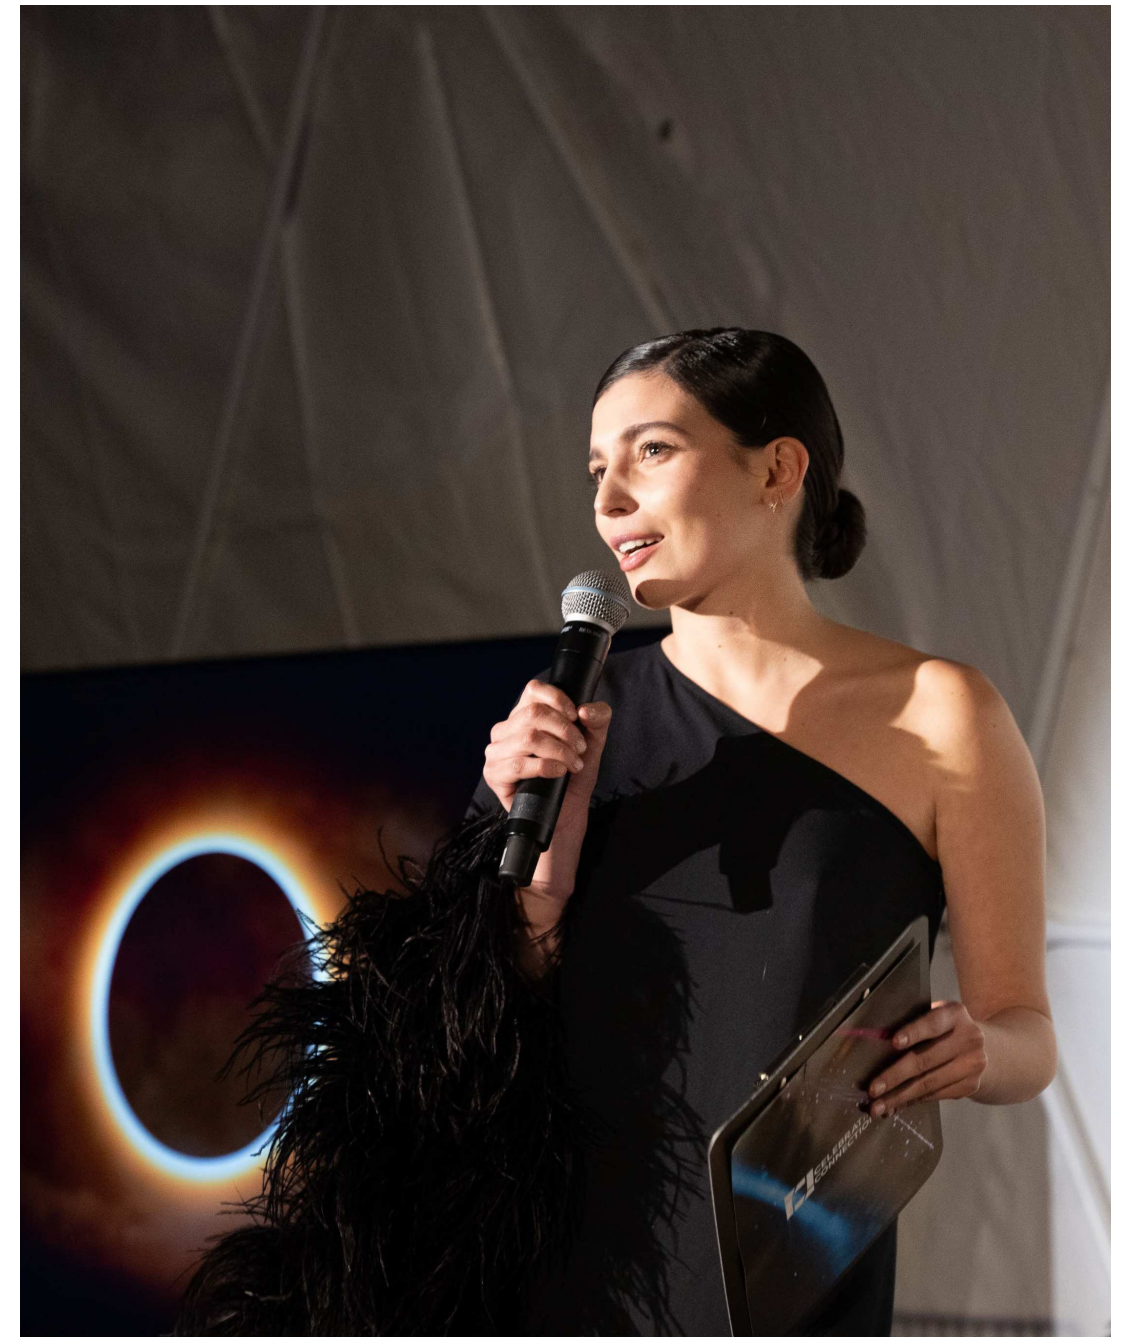

## MAFIA NEIN DANKE

Mafianeindanke is a registered association in Germany that carries out information and awareness-raising work on the infiltration of organized crime and mafia cultures into the economy and social structures.

This event, organized through collaboration between the Italian and German governments, took place inside the Italian embassy and saw, among various guests, the former Italian Minister of the Interior, Marco Minniti, and the former German Minister of the Interior, Thomas de Maizière.

## ReDI SCHOOL

ReDI School of Digital Integration is a non-profit coding school for tech-savvy people without access to digital education based in Berlin, Hamburg, Munich, NRW, Aarhus, Copenhagen and Malmö.

I collaborate by photographing the development of the teaching phases during training courses, presentation events and award ceremonies.

# MISCELLANEOUS

As a freelance photographer, I also document other types of events, ranging from public events worthy of national and international interest, to private events linked to the world of art and culture.

On commission, I collaborate with the photographic agency Sopa Images.
